

ETAPPEN-WANDERN

Wanderblog über Fernwanderwege Europas

Etappen-Wandern (means: stage hiking) is a hiking blog for backpackers between coast and mountains. Favorite destinations: Germany, Alps and Europe. I prefer soft mattresses and local culinary delights. Long distance? Many summits? Count me in! Etappen-Wandern is for modern hikers who love quality content and inspiration.

WHAT CHOOSES ME

I really enjoy what I do, I love nature, minimalism and walking. I convey this **POSITIVELY** and **AUTHENTICLY** in my texts and my readers appreciate this.

I can get excited about almost every destination when it's in nature. I am **CHEERFUL** and **CONVINCING** - even when the weather is bad, I am charmed by small details that can be discovered along the way.

On the mountains I'm **TOUGH** and **AMBITIOUS** - but not only on the mountain! Also from my texts, videos and pictures I always try to get the best out of it.

ABOUT ME

Without my hiking boots I'm the boss of a PR agency for health issues, horse lover, foster mother and young author, living in a small half-timbered village near Hannover, Germany. With hiking boots I am nature lover, mountain crazy, adventurer and freedom lover. I can excite others, that's why I'm blogging since 2018.

I notice reading your report / blog that I want to have this experience in my life. "

COOPERATION

My #favoriteplace is nature! I do not participate in city trips or culinary trips without reference to outdoor. I am looking forward to individual trips encompassing hiking, especially hiking trails. I am also open to other outdoor activities such as horse riding, canoeing, paragliding, ski tours or snowshoeing. Please note that I only write in German.

Press/Blogger trips

You invite me on a journey, I report in my usual scope on my blog and social media channels. We discuss together what you want and I present the ideas.

Takeover social media channels

For the duration of the press trip, I take over one or more of your social media channels, reporting to your followers daily, up close and emotionally about my experiences.

Test equipment

Very rarely do I test equipment. When I do this, the test products must meet my sustainability, weight and quality needs.

BLOGGER KODEX

Cooperations are always marked as such by me. Basically, cooperation with companies or organizations in no way influences my reporting. I will always provide my honest and personal impressions.

Tester for long-distance hiking trails / multi-day tours

Would you like to open a long-distance hiking trail? Then let me test it. I'll share the information with my readers who are most interested in this topic. You will receive valuable feedback and, on request, texts and images for your own means of communication.

Hiking guide

In 2019 I will be writing a hiking guide for the renowned German publishing company Rother Bergverlag. Provided that you have a good concept, this is also possible for your long-distance hiking trail. Also a hiking book with daily stages is conceivable.

If you want to release your own german language hiking guide, I could be the right author for it.

Text and photos

After the trip, I create descriptions of the tours according to your specifications for your website or other media, also SEO-optimized. If you like pictures, you can purchase them by appointment.
